

A screenshot of the SWI-Prolog console window. The window has a title bar with the text "SWI-Prolog console" and standard window controls (minimize, maximize, close). Below the title bar is a menu bar with the following items: File, Settings, Tools, Debug, GUI, and Help. The main area of the window is a black terminal with white text. It displays a welcome message, a disclaimer, and instructions on how to use the console. It then shows a series of Prolog queries and their results. The queries are numbered 38 through 44. The results are "true." for most queries, and "Z = 12." for the last one. The cursor is at the end of the last query.

```
